## **Section V. Other Certification/Accreditation Requirements**

Additional details on food import requirements and procedures, including import permit, product registration, and food labeling are available in the Food and Agricultural Import Regulations and Standards report at [www.fas.usda.gov](http://www.fas.usda.gov).

In addition, both the DOA and the DLD require import permits. The procedure for import permit issuance has been, at times, non-transparent for certain pork and poultry products. The DLD agreed in principle (although not officially in writing) to accept “system audits” for exporting facilities instead of its earlier requirement of “separate plant audits.” However, the DLD added the requirement that

exporting countries of animal and animal products must complete the DLD's questionnaire for approval before the DLD send its team to conduct on-site inspections for each exporting country.

## USDA Export Verification (EV) Program for Thailand Agricultural Marketing Service (AMS) Statement of Verification

AMS has approved \_\_\_\_\_ USDA establishment number \_\_\_\_\_ under the EV Program for Thailand. AMS has reviewed the product list for this company, dated March 20, 2006. The products listed are produced under an approved EV Program for Thailand.

This establishment meets the specified product requirements outlined in ARC 1030N Procedure through an approved USDA Quality System Assessment (QSA) Program. The USDA QSA Program ensures that the specified product requirements are supported by a documented quality management system and that product is identified and traceable through the system. As such AMS attests to the following:

*The exported beef to Thailand fulfilled all of the required conditions described in the Export Verification Program and has been handled at an establishment with an approved EV Program.*

*The product was obtained from animals less than 30 (thirty) months of age.*

*The product contains no specified risk materials including brain, skull, eyes, trigeminal ganglia, spinal cord, tonsils, distal ileum, vertebral column (excluding the vertebrae of the tail, the transverse processes of the thoracic and lumbar vertebrae, and the wings of the sacrum), and dorsal root ganglia.*

**NOTE:** This document must be attached to the original FSIS Export Certificate prior to being presented to FSIS for final review.

**DISCLAIMER**

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Bangkok, Thailand for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY THE BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

Please contact the FAS office in Bangkok if you have any comments, corrections or suggestions. The e-mail address is [agbangkok@fas.usda.gov](mailto:agbangkok@fas.usda.gov).
